2. **Students (and their welfare)**

• **General characteristics:**
  Students come mainly from middle to lower socio-economic backgrounds, School Cardholder’s make up 33% of the student population, approximately 60% are EALD students and there are 13 Aboriginal students.

• **Special needs:**
  We have a Primary Special needs class which caters for 12 students.
  A full time teacher position is shared by 2 teachers (6.0 and 0.4) and there are 30 SSO hours in the special class
  Students, where possible, participate in mainstream class activities.

• **Peer Support:**
  Teacher’s team together to teach a cross-age tutoring Buddy class program to all students R-7, this supports the school’s focus on providing a supportive learning environment. The program aims to have older students interacting with younger students both in the classroom and in the yard.

• **Student management and support:**
  The school has a well-structured Behaviour Management policy in line with the DECD school discipline policy focussing on acknowledging appropriate behaviours.
  Our guiding principle is **Restorative Justice**, working with the students to see and understand what their actions have caused, to whom, and then how to set about repairing the relationship in a supportive way. Class meetings are on the “Circle time” principle.

• **SALT (Student Action Leadership Team)**
  The SALT is an active part of the schools decision-making process. SALT meets on a fortnightly basis, and it gives and seeks feedback through weekly class meeting structures. Representatives are elected for 2 terms at a time to allow as many students as possible to access opportunities to develop leadership qualities. We have 4 Middle Year students as SALT leaders and 9 Executives on SALT, including the Leaders.

**Key School Policies**

• **Values:**
  Following an extensive consultative process in 2000, with staff, parents and students the following Values reflect the common beliefs of our school community.

  *Respect, Caring, Responsibility, Cooperation, Participation, Achievement*

  During 2015, a consultative process with students, parents and the staff, will review our school values and determine a set of values for the school for the future.
Guiding Principles:

CARING - we provide optimism, hope and strength within our community.
RESPONSIBILITY - we value responsibility by demonstrating commitment to the whole school community in a positive manner.
RESPECT - we communicate and interact in a positive and constructive manner, in all aspects of our school life.
PARTICIPATION - we encourage and value the contributions from all members of our school community.
ACHIEVEMENT - we provide a challenging school environment where we value, acknowledge and celebrate success and excellence.
CO-OPERATION - we work together to achieve common goals and values.

CONTEXTUAL INFLUENCES:
Flinders Park is a Reception to Year 7 public school with an enrolment of approximately 315 students. The school is located in the Western suburbs and is in close proximity to the CBD. EALD students account for over half the student population, representing about 30 different language/cultural backgrounds. BSSOs are employed to support students in their learning. We currently employ an Indian BSSO and Sudanese BSSO to support our students and Community. We have 33% of Families accessing school card assistance. We are a Category 5 on the Index of Disadvantage.

The Governing Council oversees our Before, After School Care and Vacation Care Programs

At Flinders Park we aim to support the learning needs of all students by developing appropriate learning programs. We acknowledge the need to differentiate the curriculum for students with specific learning needs. The support structures currently in place for students with learning difficulties and learning disabilities are resulting in improved outcomes for these students. A teacher manages both our Special Education and EALD programs.

CORE BUSINESS:
At Flinders Park Primary School we ensure that every student experiences success and has access to a broad, balanced, relevant and challenging curriculum. Therefore we:

- Provide teaching and learning programs in all curriculum areas of study as outlined in the Australian National Curriculum.
- Our teaching programs support each child’s learning and development of knowledge and life skills.
- We assess through a range of assessment and reporting strategies, which support student learning.
- Promote a safe, secure, happy and enjoyable learning environment that is success orientated and is consistent with the school’s behavioural expectations.

- Identify students with specific learning needs, e.g. students with learning difficulties/disabilities, students with higher intellectual potential. We then differentiate the curriculum for students with specific learning needs.

- Explicitly teach and integrate thinking skills, Resource Based Learning skills, Literacy & Numeracy skills, learning technology skills and collaborative learning skills.

- Promote positive links with the feeder Kindergarten, Jean Horan Kindergarten.

- Promote positive links with all local high schools

- Involve students in decision making through class meeting structures and the SALT structure.

- Promote parent involvement in decision-making through the school’s Governing Council, associated sub committees e.g. Fundraising, Sports, Finance, Canteen, OSHC and Grounds Committees, classroom programs and surveys.

- Value and acknowledge difference and diversity through the Languages other than English (LOTE), Japanese, and classroom programs that focus on the cultural diversity in their room.

- Provide diverse opportunities for students to participate in a wide range of “extra curricular activities”. They include the festival theatre choir; SAPSASA sporting teams, each term- Friday afternoons, weekend sports team, “Rock and Water and Wakakirri.
